I'm not a big fan of these senior statements. I mean, you're asked to sum up 4 years, a pretty big chunk of your life, in 150 words or less. And when I really think about it, I don't have much of a statement to make. Sure, I'll always remember the high school years, and all the people, especially PG, PD, BB, GB, and MB, who made it such a nice time. I'd be remiss if I didn't mention the Corner, and how relaxing it was during those malaise days of Harwich High. But I don't want to seem too nostalgic over high school, because I realize it's time to make the next step, and that step is not down these all too familiar halls. I think, with all honesty, I've had enough.

Some say a small high school is terrible & we all complained about Harwich, but all and all it was a good time. We came in, grew apart, then grew up and together again. Every single person was a part of my adventure here and I thank you. May everyone go on to experience life and get out into the world, at least for a little while. Don't be afraid to open your eyes and take life in. Take chances. No man ever became great taking the safe road. J.E., E.P., O.S., French lessons and world leaders. J.G. shindigs and camping. As an exchange student, in the beginning of the year, I don't know a lot of people and I cannot speak very good English, so I won't be long or you won't understand me at all. I would like to be funny but I don't know what to say: if you can just laugh when you'll see this statement I'll feel very pleased. Anyway, I passed a wonderful year in Harwich High even if it's school. I had a lot of great time already. I would like just to say thanks to Megan, Ethan, Kerri, and everybody else Now I will write something in French: Lorsque le soleil se leve, je suis parmis vous. Ses couleurs se mele et me mette en joie je l'avoue, Tout cela est peut etre l'effet amitie, Celui que tout le monde veut partager Cet effet, je l'ai redécouvert avec vous, Et cela procure un effet fou, O! mes amis, pour rien au monde, je ne m'échapperais de cette annee Et pour finir avec le couche du soleil; annoncer A quels points je vous regretterai

## *Superintendent's Message to the Class of 1999*

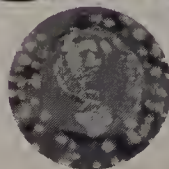

The class of 198-99, the last class to graduate in the 20th century, will hold a unique place among the graduating classes of Harwich High School. With this in mind, students, it is your responsibility to provide a positive legacy for the students of the next millennium.

*Dr. Gilbert, Superintendent*

*Carol Drezewes, Secretary*

# 1999

This legacy, at a minimum, should include pride in school, a desire to achieve high standards and a lifelong quest of truth and knowledge. I am certain you are up to the challenge and wish you the best in your future pursuits.

**Vincent Bresnahan**  
Principal

### Message from the Principal

As a graduating senior, you are no doubt leaving Harwich High School with mixed emotions. Yes, you are glad to be graduating but, at the same time, you are parting with many of your friends. The last time your class will ever be together as a group is at the ceremony in the gym on June 13, 1999. From that day on into the next millennium, it is ultimately you alone who are responsible for fulfilling your own dreams. Your family and the school community have supported you as you were growing into the person you are today and, on behalf of that Harwich school community, I wish you an adult life of happiness and fulfillment.

It is my wish for you that your personal and career dreams go beyond the mere accumulation of material goods. I hope that you will decide to pursue the ethical, moral and legal values which have made this country of ours great. I further wish that you will work toward greater justice for everyone and cherish human compassion in all your endeavors.

You are on the threshold of great things. Farewell to the Class of 1999.

**Paul Mangelix**  
Vice Principal

**Joyce Bearse**

# *What Does A Father Say To His Son Before His First Game?*

This is your first , game son.  
I hope you win  
I hope for your sake not mine  
because winning is nice.  
It's good feeling,  
like the whole world is yours.  
but it passes, this feeling,  
and what lasts is what  
you've learned.  
And what you learned about  
is life.  
That's what sports is all about,  
life.  
The whole thing is played out  
in an afternoon.  
The happiness of life.  
The miseries.  
The joys.  
The heartbreaks.  
There's no telling  
what'll turn up  
there's no telling  
whether they'll toss you  
out in the first five minutes  
or whether you'll stay for  
the long haul  
There's no telling how  
you'll do.  
You might be a hero  
or you might be  
absolutely nothing  
there's just no telling  
too much depends on chance  
on how the ball bounces.  
I'm not talking about the  
game son.  
I'm t alking about life.  
But its like that the game  
is all about  
just as I said.

Because every game is  
life.  
And life is a game.  
A serious one  
dead serious.  
But that's what you do  
with serious things  
you do your best  
you take what comes  
you take what comes  
and you run with it.  
Winning is fun  
sure.  
But winning is not  
the point  
wanting to win is the  
point.  
Not giving up is the  
point.  
Never being satisfied  
with what you've done  
is the point.  
Never letting up  
is the point.  
Never letting anyone down  
is the point.  
Play to win,  
sure.  
But lose like  
a champion.  
Because it's not winning  
that counts  
what counts is  
trying.

# Interact

I arrived here in Paris the 22<sup>nd</sup> of August and was welcomed by a very friendly group of people I have learned to call my family. There's Anne and Didier, my host parents, my host sisters Raphaele and Maylis, and my baby brother Geoffroy. I live in the heart of Paris and I enjoy walking the streets. I have done much sightseeing and travelling, but I hope to do more. One of my favorite things is the French food. It is always excellent, and always an adventure. The other part of my exchange is school. In France the schools are a lot different, but I am adjusting well. That's all for now, I do though encourage anyone who has the chance to do something like this to take the opportunity. You can learn a lot about different cultures, and most importantly about yourself.
